MEMORANDUM

TO: Deputy Commissioner Hullar

SUBJECT: "Moon Tree" Seedlings

Enclosed is background information in regard to New York's request for "Moon Tree" seedlings. We have been allocated one seedling at the present time to supply Commissioner Faber's request for his project at a national landmark, the Fulton Ferry in Brooklyn.

We will request that an additional two seedlings be allocated to the State to establish or commemorate historic points-of-interest. Creation of two sites perhaps in Buffalo and Syracuse would enable most people in the State to appreciate the seedlings and would generate renewed interest in the State's and Nation's forests.

J.O. Preston, Director
Division of Lands & Forests
