

November 12, 1976

Mr. James C. O'Shea, Commissioner
Office of General Services
Executive Department
Empire State Plaza
Albany, New York 12242

Dear Mr. O'Shea:

The D.E.C. has been fortunate in obtaining three "Moon Tree" seedlings from the Department of Agriculture to be placed in suitable locations within the State. We would like to offer one seedling to the Executive Department for placement at the Empire State Plaza.

The enclosed information sheet provides further details on the seedlings. A sample interpretive sign is also included, which could be adapted for the planting at the Plaza.

Arrangements for planting in Spring of 1977 would be desirable.

We would appreciate a reply at your earliest convenience.

Very truly yours,

J. O. Preston, Director
Division of Lands and Forests
