Commissioner Gus Franczyk
Department of Parks Regional Director
Buffalo, New York
"Moon Tree" Seedling

Dear Commissioner Franczyk:

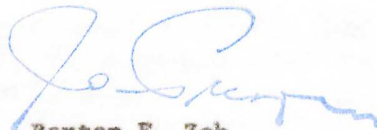

We have received your letter of March 9 suggesting April 29 as a tentative date for planting your "Moon Tree" seedling.

The tree has survived the winter quite well and is leafed-out in our greenhouse at Saratoga Nursery. We will arrange shipment with Julius Eckert for the week of April 25.

We will arrange the transport of the tree with Regional Director Friedman and Regional Forester Eckert of our Department. We are sure that a representative will be present at the planting site.

We look forward to hearing from you on a confirmed planting date and site.

Sincerely,

Barton E. Zeh
Principal Forester
