

ACCESSION NUMBER	SPECIES	AMOUNT	ORIGIN, REMARKS & DATE
LK-1217	Platanus racemosa California sycamore	10 ea.	Purchased 3-13-79 from Dow's Nursery
LK-1218	Pistache chinensis Chinese pistache	10 ea.	
LK-1219	Picea pungens Blue Spruce	200 Ea.	Rec'd 4-13-79 under P.O. #40-9104-9-385 from Native Plants, Salt Lake City, UT
LK-1220	Agropyron trichophorum 'Luna' pubescent whtgrass	6 Bags 300#	Purchased from Ramsey Seed on 4-18-79. P=90.00%; G=85.00% Date of Test: 3/79
LK-1221	Sequoia sempervirens Coast Redwood	1 Moon Tree	4-18-79 brought to PMC by Earl Carver Astronaut Stewart Roosa on the Apollo-14 mission to the Moon on July, 1969, exposed 69 coast redwoods and 36 Douglas fir seeds to lunar atmosphere as a test for germination changes. The seeds were gathered from an area around Humboldt Co. After the Apollo-14 mission, the seeds were sent to the USDA Institute of Forest Genetics, Placerville, Ca. The tests showed that there were no appreciable effects from moon exposure.
PI-232127	Agropyron spicatum Bluebunch wheatgrass	Pkt.- 50 grams	Rec'd from Bridger PMC on 5-7-79 Origin: Bridger PMC; Year-1978 No P&G Test
PI-232128	Agropyron spicatum Bluebunch wheatgrass	Pkt.- 50 grams P-15649	Origin: Bridger PMC; Year-1978 No P&G Test
LK-1222	Poa. ampla Sherman big bluegrass	10#	Rec'd 5-9-79; purchased from Jacklin-Food Center, Post Falls, Idaho P=81.07; G=67.00
LK-1223	Peraphylum ramosissimum Squaw apple	15 cuttings	Collected by Ken Croeni week of 5-14 at Alturas on tank hill
